

As an avid XM Radio listener I am appalled to hear that the NAB wants to tell me what I can and can't listen to. I have had XM Radio for 1 year now and have found their variety of programming to be outstanding. Maybe the NAB should take a listen and start making public radio stations better instead of trying to muscle the competition out of existence. I have also done a lot of travelling over the past 3 months and have found XM's instant traffic and weather reports to be the most accurate up-to-date information on the radio. XM Radio has my full support for what they are doing. Josh
